E-mail Correspondence with Joelle Van Bambeke

Waste prevention unit in IBGE

On 14/05/2012, Katerina Achinioti <aachinioti@hotmail.com> writes:

Dear Joelle Van Bambee,

My name is Katerina Achinioti and I am a Master student currently drafting my thesis on WEEE management with a specific focus on Brussels. I have already had a meeting with Rodolphe Paternostre who gave me your contact details in order to get some specific information on WEEE prevention. Therefore I would like to kindly ask you, if possible, to answer the following questions:

- 1) Does IBGE have any specific (qualitative-quantitative) prevention targets regarding WEEE?
- 2) Does IBGE have or planning to develop any specific actions/projects for WEEE prevention?

I understand that you might be quite busy and therefore I would really appreciate if you could spend some time answering me back these questions, as this would be a valuable input for my thesis report.

Thank you very much for your attention.

I look forward to hearing from you.

Best regards,

Katerina Achinioti.

Response on 14/05/2012

Hello

As you said, I've absolutely no time...

Also, I did almost nothing to say on this subject. There is no specific objective on the prevention of WEEE, neither quantitative nor qualitative. There are recycling targets against. In terms of specific actions, we do not have much either: it has already made PowerPoint broadcast via the Internet (electronic buzz) on mobile phones and appliances - link:<http://www.bruxellesenvironnement.be/Templates/Particuliers/Informer.aspx?id=2006&langtype=2060&detail=tab2>

Best regards,

Joëlle Van Bambeke
